

## **OPERATING INSTRUCTIONS**

1. No shoes, food, drinks, animals, or sharp objects allowed in the unit at ANY time.
2. The unit must be fully inflated before use, and the blower must run continuously while the unit is in operation. All air release vents must be kept closed by ties and/or velcro closures during operation
3. If the air pressure within the unit seems low, determine if the air supply tube (from blower to unit) is straight without bends or twists, and is securely tied around the neck of the blower. An occasional check for this condition will help prevent problems.
4. **The unit must be attended by an adult at all times when it is in use.**
5. The attendant(s) must assure that only the designated number of participants is allowed on the inflatable at any given time.
6. The participants *MUST* be made aware that the “game” *IS* physically challenging and should not be attempted by anyone with health impairments such as: heart disease, high blood pressure, back, neck, or other bone or joint problems, pregnancy, or other conditions that might cause problems when physically challenged.
7. Keep spectators **OFF** and **AWAY** from the unit at all times.
8. Participants must be made aware of the rules for proper use of this/these unit(s). All rules must be strictly enforced! Adult supervision is required at all times while the unit is in use. Shoes and any other items that may cause injury to oneself or damage to the inflatable such as glasses, pocket items (pens, pencils, etc.) jewelry and/or other items **must be** removed.
9. If the unit begins to deflate, discontinue use immediately. After removing participants, check to see if the blower is running. If not, check all cord connections and fuses. If the blower is running and the unit is deflated, check the air release vents to be sure they are all closed and that there is not an obstruction to the air intake tube.
10. If the unit is set up outside and sudden severe weather or high winds (15mph+) occur, remove participants immediately and deflate the unit.
